

## *Stocktaking of Developments in Dispute Resolution in the Digital Economy (DRDE)*

Venue: Boardroom D, Vienna International Centre

Time: Friday, 14 July 2023, from 1.00 pm to 1.50 pm

Language: English

The DRDE stocktaking project was launched in December 2021, and it conferred on the secretariat the mandate to monitor the changing landscape of dispute resolution. Through this project, the secretariat has carried out various activities to compile, analyse and share relevant information, with a view to laying the groundwork for updating existing UNCITRAL texts or developing new ones.

The secretariat has embarked on an initiative called the “World Tour” to seek inputs from different parts of the world. While this endeavor is in progress, the impact of digitalization on dispute resolution has been explored and legal issues have been identified.

During this event, the secretariat will brief delegates on the progress made and upcoming activities, including discussions in the World Tour. The briefing will be followed by an informal pre-discussion to seek inputs from delegates ahead of UNCITRAL’s in-session discussion on DRDE scheduled for 19 July 2023.

**Note:** This is an in-person event open to all delegates. Registration is not required.
