

Swiss Arbitration Association

Presentation of the Arbitration Toolbox by ASA to the Working Group II of UNCITRAL at the occasion of its 74th session

September 29, 2021
1- 2pm CEST

The Arbitration Toolbox is an interactive online tool that guides users through the various stages of an arbitration on the basis of checklists, decision trees and examples of procedural orders and submissions. It can be used with any arbitration rules, including the UNCITRAL Arbitration Rules, and is independent of the applicable law. It is particularly well suited for use together with the UNCITRAL Notes on Organizing Arbitral Proceedings. The Arbitration Toolbox is intended for users of all levels of experience and is freely available on the Internet. It has been developed by an international team of practitioners under the aegis of the Swiss Arbitration Association ASA.

The presentation will show how the Arbitration Toolbox fits into the existing endeavours of UNCITRAL in the area of international arbitration and will allow delegates to discuss any possible support by UNCITRAL for the promotion of the Toolbox.
