

SMEs under the Co-vid: Experiences from China

Yang Yi, RealAI

Sept. 2021

Background

The SMEs plays an important role in China economy

Number, GDP, Tax contribution...

The SMEs experienced a major impact during the outbreak

ESIEC survey

Chinese government supports a lot

Supportive policies

How to enhance the ability of SMEs to resist cashflow risks

Internal Cause

Lack of track record

- **Actively explore the surrounding resources**

Instability

- **Observe law and discipline at the very beginning**
- **Marketability**

External Cause

Limited financing channels

- **Irreplaceability**
 - **Outstanding team**
 - **Technical threshold**

High financing cost

- **Harness the power of technology**

Experience from China: a typical example

//

Beijing RealAI Technology Co., Ltd is incubated in Institute of Artificial Intelligence in Tsinghua University, we developed a new generation of AI infrastructure developed based on the third-generation artificial intelligence theory proposed by Academician Zhang Bo of Tsinghua University, in response to the increasingly severe security problems of artificial intelligence in data, algorithms, and applications.
