SMEs under the Co-vid: Experiences from China

Yang Yi, RealAI

Sept. 2021
The SMEs play an important role in China's economy.

The SMEs experienced a major impact during the outbreak.

Chinese government supports a lot.
How to enhance the ability of SMEs to resist cashflow risks

Lack of track record
- Actively explore the surrounding resources

Limited financing channels
- Irreplaceability
  - Outstanding team
  - Technical threshold

Instability
- Observe law and discipline at the very beginning
- Marketability

High financing cost
- Harness the power of technology
Experience from China: a typical example

Beijing RealAI Technology Co., Ltd is incubated in Institute of Artificial Intelligence in Tsinghua University, we developed a new generation of AI infrastructure developed based on the third-generation artificial intelligence theory proposed by Academician Zhang Bo of Tsinghua University, in response to the increasingly severe security problems of artificial intelligence in data, algorithms, and applications.
