

## Side event organized by Paraguay: Discovering Chaco Vivo, the biggest REDD+ project in Paraguay and one of the most important in South America

**Venue:** Boardroom D, Vienna International Centre

**Time:** Wednesday, 12 July 2023, from 5.10 to 6.00 pm

**Language:** English

Chaco Vivo is an innovative REDD+ Project that seeks to define a new way of doing green business and is currently looking to establish strategic alliances with international investors with the same vision towards a cleaner and more sustainable future. Through the Reduction of Emissions from Deforestation and forest Degradation mechanism, the project seeks to allocate the investments received not only for the conservation of biodiversity and forests but also to generate a significant and substantial impact on the populations of the Paraguayan Chaco, generating a real and measurable development for nearly 10.000 people, through its carbon credits. The speakers will present the vision, the history of the project, how it works, what makes it unique, and the investment opportunities.
